**Attachments:** MEComplianceActivityFFY14.xlsx

Attached is a spread sheet that list compliance and enforcement activity at stationary sources and Air Bureau complaints for FFY 2014. This should help with our discussions tomorrow. When I was reviewing data for the SRF, I saw that some annual compliance certifications did not get into the AFS system. I have updated ICIS with this information but I understand that this will not change the stats in the SRF. If you have questions ahead of time, feel free to call me.

Louis,

I look forward to talking together tomorrow. Here's the conference line info:

**Accessing the 6-party Conference Bridge:**

To access a 6-party ad-hoc session the participants will need to;

1. Dial the Ad-Hoc Conferencing pilot number 617-918-2222
2. Enter the assigned **5-digit conference extension 71551**
3. When prompted: the Participants enter **2**
4. Passcodes are entered;
  - a. Participants enter assigned 6-digit passcode when prompted (default is **123456**)

Steve

I was looking forward to seeing you both but I understand the snow situation all too well. I just got to the office from moving snow from the last storm.

Can you give us a conference call number?

**Subject:** Thursday's End of year Meeting

Hi Eric, Kurt and Louis, I hope you are all doing well. Because of the possibility of another storm this coming Thursday, Steve and I thought that rather than a face-to-face we would have a conference call with the three of you at the same scheduled time, 11:00 am, on this Thursday. We will postpone our face-to-face meeting until sometime in March. I hope this still works for you.

We look forward to talking to you on Thursday! Regards, Tom
